# WORLD LEISURE CENTERS OF EXCELLENCE OPEN REQUEST FOR PROPOSALS

## INTENT AND SCOPE

The purpose of this Request for Proposal (RFP) is to solicit proposals from interested colleges or universities to establish and implement a World Leisure Center of Excellence (WLCE) and be a recognized member of the WLCE network. The rights specified in this agreement pertain to the opportunities outlined in "Rights and privileges of the WLCE network and opportunities within WLO" section. Only complete applications will be considered.

The required documentation of expertise and qualifications outlined in this request are intended to serve primarily as a general guide for each statement of qualifications, with the minimum requirements listed. Each college or university is expected to submit a fully detailed statement of qualifications that adequately describes the advantages and benefits the World Leisure Organization (WLO) would realize by selecting their institution. Through this RFP process WLO may select multiple institutions to establish WLCE.

# WORLD LEISURE ORGANIZATION

As a worldwide, non-governmental voluntary organization, WLO is dedicated to discovering and fostering the conditions that enable leisure to serve as a force to optimize collective and individual well-being. More specifically, through research, education, knowledge transfer and advocacy, WLO: 1) promotes leisure as integral to social, cultural and economic

development; 2) supports the rights of all people to good quality leisure experiences; 3) recognizes that many people have special requirements related to disability, age, gender, social status, poverty, domicile and education; 4) acts where leisure includes play, recreation, the arts and culture, sport, festivals and celebrations, health and fitness, travel and tourism.

## WLCE NETWORK

WLCEs are tertiary institutions that provide state-of-the-art \*English-taught graduate programs focused on play, recreation, the arts, culture, sport, festivals and celebrations, health and fitness, or travel and tourism. As part of the WLO family, the WLCE network provides students, educators, researchers and professionals the chance to participate and contribute to unique, theme-focused educational endeavors at an international level. WLCEs are leading institutions, providing teaching, research and community services on leisure best practices.

*\*\*To have English-taught graduate programs is not mandatory but preferable. If you have questions about this matter connect directly with WLO Secretariat.*

Currently, the network of the WLCE is formed by **Breda University of Applied Sciences** (the Netherlands), **Vancouver Island University** (Canada), **University of Sao Paulo** (Brazil), **University of Otago** (New Zealand), **Zhejiang University** (China), and **Université du Québec à Trois-Rivières** (Canada). WLO anticipates the establishment of selective additional WLCE, especially in geographic areas without representation of such programs. However, all proposals will receive consideration by the WLO Board of Directors.
